

Three Easy Steps to “Curbside Compost” in Ipswich

Step one: Place organics into counter top container and/or in separate containers throughout house (for tissues in bathrooms, etc...).

Step two: Dump contents of counter top container into curbside bin as often as you'd like.
***To decrease the “Yuck factor” line your bin with paper bags, newspaper, or BPI approved bags.

Step three: Bring curbside cart/bin (and extra lawn bags) to the end of your driveway each Wednesday for pick up.
